Confidence in Every Turn — Tapware You Can Trust in Hygiene-Critical Environments

Designed to meet the demands of healthcare, aged care, and commercial environments, GENTEC's GPURE® CLEANLINE range delivers exceptional performance where it matters most.

Manufactured from Stainless Steel ZERO* Lead and crafted with infection prevention in mind, the GPURE® CLEANLINE range offers a reliable, hygienic, and low-maintenance tapware solution — ideal for hospitals, aged care facilities, and any setting where cleanliness is critical.

With versatile configurations including basin and sink sets, exposed and recessed mixers, control valves, cistern and washing machine taps, as well as spouts recommended for all commercial applications, GPURE® CLEANLINE combines safety, durability, and smart functionality.
