

Built for the Demands of Commercial Kitchens: GPURE® JETFLO Stainless Steel Pre-Rinse Units

Tough performance. Clean results.

Meet the GPURE® JETFLO range – Stainless Steel spray tapware purpose-built for today's commercial kitchens. Designed to deliver unmatched performance, flexibility, and hygiene, GPURE® JETFLO features a precision-engineered blade spray, fingerprint-resistant brushed finish, and easy-clean hose system for efficient, everyday use.

Its Stainless Steel 304 PEX-lined inlet hoses ensure long-term durability, while an integrated double-check valve safeguards water quality. Whether rinsing, cleaning, or prepping, GPURE® JETFLO gives users the confidence and control they need – day in, day out.

Feature	Benefit
Stainless Steel ZERO* Lead	Safe, robust and long-lasting; easily maintained and rejuvenated
Jet spray in the trigger spray is created with a stainless steel blade spray	Retains its shape for longer and provides an easier clean with less water use
Soft, easy-clean hose	Provides flexibility and makes using the trigger spray easier
Flexible stainless steel spring	Easy operation
One cartridge used across the GPURE® JETFLO range	Simplified Maintenance
(SS304) PEX inlet hoses	Durable, corrosion-resistant hoses improve product longevity and hygiene
Double-check valve	Prevents backflow contamination, ensuring water quality and safety
Aerator nozzle outlet available for trigger spray	Offers a gentler water stream, reducing splashing and enhancing user comfort
Durable stainless steel blade spray for convenient cleaning	Flexible solutions to meet unique project specifications and customer needs
Brushed finish stainless steel	Durable and fingerprint-resistant surface
Ceramic cartridge	Low maintenance
