

Health & Aged Care Solutions: Sanitary Ware with Infection Control Technology for Type A, Type B & Ensuites

STERISAN® Ensuite Basins - Accomplish 5 Key Criteria in Infection Control

- ✓ Specifically designed with a rear offset waste to prevent aerosols created from water being directed into the waste fitting, thus reducing airborne bacteria
- ✓ Sloped surfaces in the bowl area to drain water effectively to rear offset waste
- ✓ NANO glazing
- ✓ Soap overflow will drop straight into the drain
- ✓ Hygienic hand wash method

The GRATE SEAL® One-Way Valve is an Innovative Solution for Eliminating Bacteria, Odours and Vermin for Basin Waste

Why GRATE SEAL®?

GRATE SEAL® offers a unique drainage solution that stands out from other products on the market. Its flexible, single-piece units are easy to install and require minimal maintenance, making it a convenient option for customers.

Additionally, this range can be coupled and retrofitted with any of our existing 316 Stainless Steel 32mm/40mm basin waste without any disruption to the surrounding waste area.

GRATE SEAL® features a one-way valve that allows water to flow freely, while preventing the escape of pathogens, odours, and vermin from the sewage and waste system into habitable zones.

Unique Features and Benefits

- Protects basins from airborne bacteria, sewer gas odours and insects
- Allows water to flow freely
- Easy to install
- Easily access the basin outlet piping for maintenance (cleaning & clearing)
- Silicone valve insert can be replaced as required (recommended 6-12 months intervals)
- Material : one-way basin valve - silicone with ABS cross grate
- WaterMark approved
