

Empowering Efficiency, Hygiene, and Sustainability

GPURE® GENEVO Stainless Steel Electronic Sensor Tapware - GPG3000

No Mains Power Required

Our latest GPURE® GENEVO Stainless Steel Electronic Sensor Tapware - GPG3000 is a powerful solution that operates without the need for external power sources. Crafted from Stainless Steel ZERO* Lead, it is a superior solution over traditional brass tapware.

Digital Sensor Programming

Hygiene Flush

Durable & Long-Lasting

Easily Maintained & Rejuvenated

Unique Features and Benefits

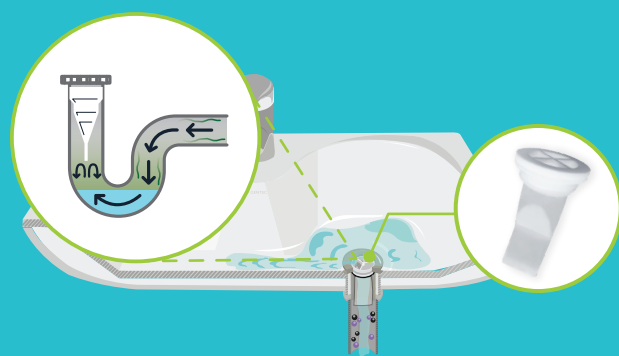

- ✓ Stainless Steel contains 0.00% Lead vs Brass containing up to 0.25% lead. Research shows that no amount of lead is safe for consumption.
- ✓ Low Voltage Solenoid Valve and Digital sensor technology - tested with over 500,000 cycles
- ✓ Internal Integrated sensor and solenoid valve for easy installation
- ✓ Hygiene flush programming option to minimise the risk of Legionella and Biofilm Growth in infrequently used fixtures
- ✓ Unique "Push Fit" locking technology – allows installation / removal in less than a minute
- ✓ Environmentally sustainable design for rejuvenation and minimising maintenance
- ✓ Compatible with GENTEC STERISAN® Wash Basins and can be installed on other existing installations
- ✓ Wave on / Wave off and other run time options available on request alternatively they can be adjusted on site utilising a remote control

Health & Aged Care Solutions: Sanitary Ware with Infection Prevention and Control Technology for Type A and B

STERISAN® Basin

- ✓ Specifically designed with a rear offset waste to prevent aerosols created from water being directed into the waste fitting, thus reducing airborne bacteria
- ✓ Sloped surfaces in the bowl area to drain water effectively to rear offset waste
- ✓ NANO glazing
- ✓ Soap overflow will drop straight into the drain
- ✓ Hygienic hand wash method

GENTEC's One-Way Valve provides a seal between the basin waste and the basin bowl to seal off any possible aerosol of bacteria and biofilm into the hand wash area.

Additionally, this range can be coupled and retrofitted with any of our existing 316 Stainless Steel 32mm/40mm basin waste without any disruption to the surrounding waste area.

One-Way Valve

- ✓ Protects basins from airborne bacteria, sewer gas odours and insects
- ✓ Allows water to flow freely
- ✓ Easy to install
- ✓ Easily access the basin outlet piping for maintenance (cleaning & clearing)
- ✓ No ridges or braces to obstruct or catch waste
- ✓ Air tight seal to prevent any odour from escaping
- ✓ WaterMark approved
