

GENTEC Master Product Specification Catalogue

ABOUT GENTEC

At GENTEC, we focus on partnering with plumbing and building industries to develop and deliver innovative and compliant technical plumbing and building solutions for use within the healthcare, hospitality, commercial, educational and industrial sectors. We are an ISO9001 Quality Certified company. We distribute our commercial tapware, sanitaryware, water temperature control, building management, emergency shower and accessible design performance solutions both in Australia and internationally.

Our highly trained and committed team offers a superior support network that enables us to deliver the very best solutions in a highly efficient and responsive manner. GENTEC embraces and promotes a strong family culture where personal growth and development is nurtured and valued.

Our purpose-built design solutions encompass measurable whole of life cost benefits that enable operational savings critical in today's built environment.

Disclaimer: Stainless Steel Grades 304 & 316 are manufactured with ZERO Lead.

PRODUCT SOLUTIONS FOR ALL

Designed to Suit Your Needs

GENTEC products have been specially designed for target markets within the commercial industry. These markets have been chosen, so the ranges complement each other and the users can find complete solutions within the GENTEC Range.

Healthcare Risk Prevention Solutions

Hospitals
Aged Care
Medical Clinics
Research Facilities
Accessible Facilities

Our extensive experience and know-how enable us to offer a comprehensive suite of products and solutions for Health and Aged Care applications. We work closely with all the key stakeholders in the health care sector, which gives us a thorough understanding of the critical elements needed to mitigate cross infection and microbial control.

Commercially Fit-for-purpose Solutions

Hotels
Education
Office Buildings
Shopping Centres
Sporting Facilities

High-traffic public facilities demand fit-for-purpose vandal resistant solutions that continue to perform day in and day out with minimal downtime. At GENTEC, understanding the demanding need for safe, effective solutions with designs and technology that embody a strong service life is at the core of our offerings. Water and energy efficiency is additionally combined into solutions that are fit for today's increasing hygiene demands within commercial facilities.

Hospitality Commercial Products Solutions

Restaurants
Hotels & Clubs
Sporting Facilities
Commercial Kitchens

GENTEC's functional and comprehensive range of solutions for hospitality and food preparation applications have been designed and manufactured for those that demand premium quality fitout of their facilities. Hygiene and performance are critical within this space. At GENTEC, our fit-for-purpose solutions from pre-rinse sprays, touch-free outlets through to water temperature control for safe and hygienic hand washing mesh perfectly together along with superior service life.

Professional & School Laboratory Solutions

Educational Facilities
Mining
Universities
Laboratories
Medical Facilities

Our extensive GENTEC product range offers a variety of option to suit any specific application you may require. The DURALAB range includes bench, pendant or wall systems with services ranging from water to any gas or dry services. This range is complimented by our ECOSAFE safety shower range to provide a complete solution for any scientific scenario.

Health & Safety Solutions for Industrial Applications

Mining
Refineries
Laboratories
Manufacturing
Chemical Plants

Workplace Health and Safety is critical in any workplace. Whilst mitigating risks through the application of sound procedures and processes, many workplaces require the additional use of first response equipment such as emergency showers and eyewash. At GENTEC, our fit-for-purpose compliant solutions are perfectly suited for commercial, industrial, and mining applications that mandate such products for the protection of their workforce who may be exposed to hazardous materials during their day-to-day activities.

Corrections/ Mental Health Solutions

Hospitals
Aged Care Facilities
Corrective Facilities
Police Stations
Public Facilities

We have a range of robust products for use at Corrections/ Mental Health facilities. These products provide the highest level of security with the use of vandal resistant and anti-ligature features. These are easy to use and clean, while providing water and energy savings.

Note: The information provided is only a guide, actual product may differ. The information here should not be relied on without clarification with Gentec. Gentec reserves the right to make design changes at any time without notification.

Disclaimer: Stainless Steel Grades 304 & 316 are manufactured with ZERO Lead.

LEAD FREE STAINLESS STEEL

- Environmentally friendly and safe
- No chrome plating
- Stainless Steel ZERO* Lead, robust and long-lasting
- Recommended Polished & Machine finish for Healthcare applications
- Recommended Satin finish for Commercial applications
- Easily maintained & rejuvenated
- A healthier choice with a lifetime product solution

GPURE® FLOSTOP — TIMED FLOW TAPS, BUBBLERS, BOTTLE FILLERS & FOOT OPERATED / PEDAL VALVES

Reliable, Durable, and Water-Efficient

The GPURE® FLOSTOP Timed Flow tapware range is designed to provide a reliable and durable solution for water conservation in high-traffic areas. Made from Stainless Steel ZERO* Lead, this range offers enhanced safety and sustainability features.

The range includes different types of tapware, including bubblers, bottle fillers, bib taps, and pillar taps, all of which incorporate a timed flow mechanism to control the water flow and reduce water wastage. In addition to its water-saving benefits, the GPURE® FLOSTOP Timed Flow tapware range is also highly durable and resistant to vandalism. These features make it an ideal choice for use in high-traffic areas such as public washrooms and schools where durability and anti-vandalism features are important.

TIMED FLOW TAPS

Technical Information

- **Material:**
 - Zero Lead Stainless Steel 304: GPT1000W & GPT1500
 - Zero Lead Stainless Steel 316: GPT7000 & GPT7500
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:**
 - 1/2" Female: GPT1000W
 - 1/2" Male: GPT1500
 - 15mm: GPT7000
 - 15 mm Female Flexible Connections: GPT7500
- **Outlet:**
 - Single Temperature Timed Flow: GPT1000W, GPT1500 & GPT7000
 - Angled Single Temperature Timed Flow: GPT7500
- **Flow Style:**
 - Aerated Flow: GPT1000W & GPT1500
 - Laminar Flow: GPT7000 & GPT7500
- **Run Time:**
 - 5 seconds (+/- 2): GPT1000W & GPT1500
 - 0-20 (+/-5) seconds (Adjustable): GPT7000 & GPT7500
- **Working Pressures:** 150kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:**
 - 5°C - 45°C: GPT1000W & GPT1500
 - 5°C - 50°C: GPT7000 & GPT7500
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- Soft-close, hydraulically operated time flow
- Designed to be durable and anti-vandal
- Supplied with inlet strainer and flow controller
- Yellow & Blue button indicators supplied
- One service kit used across the GPURE® Timeflow range for easy maintenance: GPT7000 & GPT7500
- Run time is easily changeable post installation: GPT7000 & GPT7500
- Product customisation available: GPT7000 & GPT7500
- Recommended for commercial and public projects

*Product information is subject to disclaimer within this catalogue.

GPURE® FLOSTOP

TIMED FLOW BUBBLERS

Technical Information

- **Material:**
 - Body: Zero Lead Stainless Steel 316
 - Bubbler Guard: UV Stabilised Food Grade Rubber
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm
- **Outlet:**
 - Right Angled Single Temperature Timed Flow: GPT8000
 - Angled Single Temperature Timed Flow: GPT8050
 - Upright Single Temperature Timed Flow: GPT8050UR
- **Flow Style:** Free Flow
- **Run Time:** 0-20 (+/-5) seconds (Adjustable)
- **Working Pressures:** 150kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Brushed

Product Features

- Stainless Steel Zero Lead
- Soft-close, hydraulically operated time flow means that it's suitable for all markets
- Designed to be durable and anti-vandal. Suitable for use in public areas
- One service kit used across the GPURE® Timeflow range for easy maintenance
- Supplied with inlet strainer and flow controller
- Flow height adjustable post installation
- Red, Yellow & Blue button indicators supplied
- Run time is easily changeable post installation
- Recommended for commercial and public projects
- Product customisation available

BOTTLE FILLERS

Technical Information

- **Material:** Zero Lead Stainless Steel 316
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm
- **Outlet:**
 - Single Temperature Timed Flow, Gooseneck Spout: GPT8100
 - Upright Single Temperature Timed Flow, Gooseneck Spout: GPT8200
- **Flow Style:** Free Flow
- **Run Time:** 0-20 (+/-5) seconds (Adjustable)
- **Working Pressures:** 150kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish :** Brushed

Product Features

- Stainless Steel Zero Lead
- Soft-close, hydraulically operated time flow means that it's suitable for all markets
- Designed to be durable and anti-vandal. Suitable for use in public areas
- One service kit used across the GPURE® Timeflow range for easy maintenance
- Supplied with inlet strainer and flow controller
- Flow adjustable post installation
- Red, Yellow & Blue button indicators supplied
- Run time is easily changeable post installation
- Recommended for commercial and public projects
- Product customisation available

FOOT OPERATED / PEDAL VALVES

Technical Information

- **Material:** Stainless Steel 304
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15mm
- **Inlet:** 15mm Male (G 1/2" BSP)
- **Outlet:** 15mm Male (G 1/2" BSP)
- **Flow Style:** Free Flow
- **Run Time:** On/Off
- **Working Pressures:** 150kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Satin

Product Features

- Stainless Steel Zero Lead
- Designed to be durable and anti-vandal
- 100% hands-free operation — Activate water flow using your foot
- No electrical power required — Simple mechanical operation without batteries or mains power
- Reliable water control — Precise spring action On/Off mechanism provides convenient control of water flow
- Easy to clean — Smooth stainless-steel surfaces help support effective cleaning and maintenance
- Low maintenance — Robust mechanical design
- Recommended for commercial and public projects

GPURE® FLOSTOP

GPT1000W

Bib Tap

Zero Lead Stainless Steel 304 Wall Mounted Single Temperature Timed Flow Bib Tap

GPT1500

Pillar Tap

Zero Lead Stainless Steel 304 Hob Mounted Single Temperature Timed Flow Pillar Tap

GPT7000

Bib Tap

Zero Lead Stainless Steel 316 Wall Mounted Single Temperature Timed Flow Bib Tap

GPT7000: 6 Star, 4.0 LPM

GPT7000-5: 6 Star, 5 LPM

*Product information is subject to disclaimer within this catalogue.

GPT7500

Pillar Tap

Zero Lead Stainless Steel 316 Hob Mounted Angled Single Temperature Timed Flow Pillar Tap

GPT8000

Bubbler

Zero Lead Stainless Steel 316 Wall Mounted Right Angled Single Temperature Timed Flow Bubbler w/ Safety Bubbler Guard

GPT8050

Bubbler

Zero Lead Stainless Steel 316 Wall Mounted Angled Single Temperature Timed Flow Bubbler w/ Safety Bubbler Guard

*Product information is subject to disclaimer within this catalogue.

GPURE® FLOSTOP

GPT8050UR

Bubbler

Zero Lead Stainless Steel 316 Hob Mounted Upright Single Temperature Timed Flow Bubbler w/ Safety Bubbler Guard

GPT8100

Bottle Filler

Zero Lead Stainless Steel 316 Wall Mounted Single Temperature Timed Flow, Gooseneck Spout Bottle Filler

GPT8200

Bottle Filler

Zero Lead Stainless Steel 316 Hob Mounted Upright Single Temperature Timed Flow, Gooseneck Spout Bottle Filler

GPT3600

Foot Operated / Pedal Valve

Stainless Steel Floor Mounted 15mm Male (G 1/2" BSP) Foot Operated / Pedal Valve

*Product information is subject to disclaimer within this catalogue.

GPURE® REBEL — SINGLE LEVER MIXERS

GPURE® REBEL Single Lever Mixers are made of high quality Zero Lead Stainless Steel 304, providing enhanced durability and resistance to corrosion. Additionally, these mixers incorporate a laminar flow feature that helps to reduce the risk of aerosolisation at the outlet, which can be a concern in healthcare environments and other areas where hygiene is a priority. This easy-to-use and durable range of Single Lever Mixers is also an ideal choice for any commercial and hospitality projects.

BASIN / SINK MIXERS

Technical Information

- **Material:** Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc
- **Cartridge Size:** 35mm
- **Inlet:** 15 mm Female Flexible Connections
- **Outlet:**
 - Gooseneck Swivel Spout: GPR3000
 - Low Line Swivel Spout: GPR3500 & GPR3500D
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- Smooth close operation
- Printed indicators eliminate crevices for bacteria build up
- Zero Lead Stainless Steel can be rejuvenated at any time over the life of the product
- Environmentally friendly, no electroplating processes used throughout the product lifecycle
- Laminar flow to reduce aerosol at the outlet
- Supplied with SS316 PEX inlet hoses
- Flow variants available
- Recommended for commercial, health and hospitality projects

SHOWER MIXERS

Technical Information

- **Material:** Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc
- **Cartridge Size:** 35mm
- **Inlet:** 15mm Female
- **Outlet:** 15mm Female (G 1/2" BSP)
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- Smooth close operation
- Printed indicators eliminate crevices for bacteria build up
- Zero Lead Stainless Steel can be rejuvenated at any time over the life of the product
- Environmentally friendly, no electroplating processes used throughout the product lifecycle
- Supplied with SS316 PEX inlet hoses
- Flow variants available
- Recommended for commercial, health and hospitality projects

GPURE® CLEANLINE — STAINLESS STEEL TAPWARE

Designed to meet the demands of healthcare, aged care, and commercial environments, GENTEC's GPURE® CLEANLINE range delivers exceptional performance where it matters most.

Manufactured from Stainless Steel ZERO* Lead and crafted with infection prevention in mind, the GPURE® CLEANLINE range offers a reliable, hygienic, and low-maintenance tapware solution — ideal for hospitals, aged care facilities, and any setting where cleanliness is critical.

With versatile configurations including basin and sink sets, exposed and recessed mixers, control valves, cistern and washing machine taps, as well as spouts recommended for all commercial applications, GPURE® CLEANLINE combines safety, durability, and smart functionality.

BASIN & SINK SETS

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet :**
 - Curved Fixed Spout: GPCAP0001, GPCL10001 & GPCL15001
 - Curved Swivel Spout: GPCAP0005, GPCL10005 & GPCL15005
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue lock bushes supplied
- Soft seal, easy action ceramic disc cartridge
- Interchangeable Handles (25mm handle, 100mm lever and 150mm lever)
- Three cartridges used in all Cleanline products for easier maintenance
- Flow Variants Available
- Recommended for use in health and aged care projects

EXPOSED MIXING SETS

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:**
 - 15mm: GPCAP0010, GPCAP0012, GPCL10010, GPCL10012, GPCL10015, GPCL15010 & GPCL15012
 - 15mm Male: GPCL15015 & GPCAP0015
- **Outlet:**
 - Curved Swivel Spout: GPCAP0010, GPCAP0015, GPCL10010, GPCL10015, GPCL15010 & GPCL15015
 - Fixed Parallel Spout: GPCAP0012, GPCL10012 & GPCL15012
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue lock bushes supplied
- Soft seal, easy action ceramic disc cartridge
- Full Stainless Steel cartridge
- Interchangeable Handles (25mm handle, 100mm lever and 150mm lever)
- Three cartridges used in all Cleanline products for easier maintenance
- Flow Variants Available
- Recommended for use in health and aged care projects

GPURE® CLEANLINE

RECESS MIXING SETS

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet:**
 - Gooseneck Swivel Spout: GPCAP0035, GPCL10035 & GPCL15035
 - Fixed Parallel Spout: GPCAP0040, GPCL10040 & GPCL15040
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue lock bushes supplied
- Soft seal, easy action ceramic disc cartridge
- Interchangeable Handles (25mm handle, 100mm lever and 150mm Lever)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

CONTROL VALVES

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue lock bushes supplied
- Soft seal, easy action ceramic disc cartridge
- Interchangeable Handles ((25mm handle, 100mm lever and 150mm Lever)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

WASHING MACHINE & CISTERN TAPS

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet:**
 - 20mm Male Outlet: GPCL10045C, GPCL10045H, GPCL15045C & GPCL15045H
- **Flow Style:** Free Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue lock bushes supplied: GPCAP0045(H, C), GPCAP0050(H, C), GPCL10045(H, C), GPCL10050(H, C) & GPCL15050(H, C)
- Handles with Yellow & Blue button indicators supplied: GPCL15045(H, C)
- Soft seal, easy action ceramic disc cartridge
- Interchangeable Handles (25mm handle, 100mm lever and 150mm lever)
- Allen key fixings for secure handles and outlets: GPCL15045(H, C)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

SPOUTS

Technical Information

- **Material:**
 - Main Body and Internal System: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 15mm
- **Inlet:** 15mm
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- Laminar Flow Available
- Durable Design
- Adaptable to all Gentec tapware
- Recommended for any commercial projects

GPURE® JETFLO — STAINLESS STEEL PRE-RINSE UNITS

Tough performance. Clean results.

Meet the GPURE® JETFLO range – Stainless Steel spray tapware purpose-built for today's commercial kitchens. Designed to deliver unmatched performance, flexibility, and hygiene, GPURE® JETFLO features a precision-engineered blade spray, fingerprint-resistant brushed finish, and easy-clean hose system for efficient, everyday use.

Its Stainless Steel 304 PEX-lined inlet hoses ensure long-term durability, while an integrated double-check valve safeguards water quality. Whether rinsing, cleaning, or prepping, GPURE® JETFLO gives users the confidence and control they need – day in, day out.

GPURE® JETFLO

PRE-RINSE UNIT

Technical Information

- **Material:** Zero Lead Stainless Steel 304
- **Cartridge:** Ceramic Disc / Self Closing
- **Cartridge Size:**
 - 35mm: GPJ1200 & GPJ1200C
 - 15mm: GPJ1500, GPJ3000, GPJ3000W, GPJ4000, GPJ5000, GPJ5600, GPJ6000 & GPJ9900
- **Inlet:**
 - 15mm Female: GPJ1200, GPJ1200C, GPJ1500, GPJ5600, GPJ5000 & GPJ6000
 - 15mm: GPJ3000, GPJ3000W & GPJ4000
 - 15mm Male: GPJ9900
- **Flow Style:** Blade Spray / Laminar Flow
- **Working Pressures:** 150kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Brushed

Product Features

- Stainless Steel Zero Lead
- Soft Close Operation on Trigger Spray
- One cartridge used across the GPURE® JETFLO range for easy maintenance
- The soft, easy-to-clean hose provides flexibility and ease-of-use
- Soft spring for easy operation
- Adjustable wall bracket (up to 250mm)
- Soft spring for easy operation
- Double Check Valve
- (SS304) PEX inlet hoses
- Durable Zero Lead Stainless Steel blade spray for convenient cleaning
- Aerator nozzle outlet available for trigger spray
- Recommended for commercial kitchens: GPJ1200, GPJ1200C, GPJ1500 & GPJ6000
- Recommended for Commercial Kitchens & Healthcare CSSD Areas: GPJ3000, GPJ3000W, GPJ4000, GPJ5000, GPJ5600 & GPJ9900

Pre-Rinse Unit

Technical drawing of a kitchen faucet (Faucet 1) showing three views: perspective, front, and side. The drawing includes the following dimensions:

- Front View:**
 - Spout height: 734 mm
 - Spout reach: 285 mm
 - Spout diameter: Ø28
 - Base diameter: Ø55
 - Mounting hole diameter: Ø54
 - Spout inner diameter: Ø10
 - Spout wall thickness: 14 mm
 - Spout tip diameter: Ø8
 - Spout tip radius: R3
 - Spout tip height: 100 mm
 - Spout tip width: 5 mm
 - Spout tip thickness: 2 mm
 - Spout tip material: A
- Side View:**
 - Total height: 433 mm
 - Base diameter: Ø45
 - Base mounting hole diameter: Ø41
 - Base mounting hole offset: 43 mm
 - Base mounting hole diameter: Ø42
- Perspective View:**
 - Spout height: 820 mm

GPURE® SMARTEC PLUS — TOUCH FREE ELECTRONIC TAP & MATCHING SOAP DISPENSER

The TOP Choice of Easy Handwashing Solutions for Touch Free Washrooms

The COVID-19 pandemic has changed how we view our health and hygiene, and keeping our hands clean is one of the most important steps we can take to avoid getting sick and spreading germs to others.

The touch-free laser sensor taps come with wall and hob mounted options, which allows users to wash their hands without needing to touch any surfaces.

GPURE® SMARTEC PLUS

ELECTRONIC SENSOR TAP

Technical Information

- **Material:**
 - Main Body: Zero Lead Stainless Steel 304
 - Internal System: Zero Lead Stainless Steel 316
- **Cartridge:** Solenoid Valve
- **Cartridge Size:** 15mm
- **Inlet:**
 - 15mm Female Flexible Connections: PLUS1000 (M, B, BM)
 - 15mm Male: PLUS2500 (M, B, BM)
- **Flow Style:** Laminar Flow
- **Run Time:** 2 seconds (auto on / off)
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish :** Polished

Product Features

- Stainless Steel Zero Lead
- Advanced laser sensor technology provides precision, consistency and with variable programming. This avoids nuisance triggering and activates on all skin tones
- Sensor range is adjustable post installation without the use of tools
- IP67 for the sensor and sensor tap, IP55 solenoid control box behind the wall
- Extension leads available for either power or sensor (not both simultaneously)
- Integral line strainer minimises fouling by debris in Solenoid
- Both battery and mains power options available (Configuration can be changed following installation)
- Factory-set runtime, sensitivity and hygiene flush options available
- Hygiene flush programming minimises the risk of Legionella from infrequently used fixtures
- All waterways are smooth bored for improved infection control
- Recommended for all types projects

ELECTRONIC SOAP DISPENSER

Technical Information

- **Material :** Zero Lead Stainless Steel 304
- **Run Time :** 1.5 seconds (auto on / off)
- **Finish :** Brushed
- **Soap Viscosity :** Between 1-3500m Pa.s (cP), Suggested viscosity is 1800Pa.s (cP)
- **Soap Bottle Capacity :** 1L, 12 Volt Soap Pump

Product Features

- Stainless Steel Zero Lead
- Advanced laser sensor technology provides precision, consistency and with variable programming. This avoids nuisance triggering and activates on all skin tones
- Sensor range is adjustable post installation without the use of tools
- Extension leads available for either power or sensor (not both simultaneously)
- Individual soap bottle is easily removable for refilling and servicing
- Mains power
- Product customisation available
- Recommended for all types projects

*Product information is subject to disclaimer within this catalogue.

GPURE® SMARTEC PLUS

ELECTRONIC SENSOR PLATE

Technical Information

- **Material:** Zero Lead Stainless Steel 304
- **Cartridge:** Solenoid Valve
- **Cartridge Size:** 15mm
- **Inlet:** 15mm Male
- **Run Time:**
 - 15 seconds (Factory Adjustable): PLUS3500 (M, B, BM)
 - Auto On/Off: PLUS4500 (M, B, BM)
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Brushed

Product Features

- Stainless Steel Zero Lead
- Advanced laser sensor technology provides precision, consistency and with variable programming. This avoids nuisance triggering and activates on all skin tones
- Sensor range is adjustable post installation without the use of tools
- IP67 rated control box enclosure houses the solenoid valve and waterproof connections
- Extension leads available for either power or sensor (not both simultaneously)
- Integral line strainer minimises fouling by debris in Solenoid
- Both battery and mains power options available (Configuration can be changed following installation)
- Factory-set runtime, sensitivity and hygiene flush options available
- Hygiene flush programming minimises the risk of Legionella from infrequently used fixtures
- All waterways are smooth bored for improved infection control
- Recommended for all types projects

URINAL FLUSHING SYSTEM

Technical Information

- **Material:** Plastic
- **Cartridge:** Solenoid Valve
- **Inlet:** 15mm Female
- **Working Pressures:** 50kPa-500kPa (Recommended: 350kPa)
- **Working Temperatures:** 5°C - 50°C

Product Features

- Zero Lead
- Advanced laser sensor technology provides precision, consistency and with variable programming. This avoids nuisance triggering and activates on all skin tones
- Sensor range is adjustable post installation without the use of tools
- IP67 rated control box enclosure houses the solenoid valve and waterproof connections
- Extension leads available for either power or sensor (not both simultaneously)
- Integral line strainer minimises fouling by debris in Solenoid
- Both battery and mains power options available (Configuration can be changed following installation)
- Factory-set runtime, sensitivity and hygiene flush options available
- Hygiene flush programming minimises the risk of Legionella from infrequently used fixtures
- All waterways are smooth bored for improved infection control

GPURE® GENEVO — STAINLESS STEEL ELECTRONIC SENSOR TAPWARE

No Mains Power Required

Our latest GPURE® GENEVO Stainless Steel Electronic Sensor Tapware - a powerful solution that operates without the need for external power sources. Crafted from Stainless Steel ZERO* Lead, it is a superior solution over traditional brass tapware.

ELECTRONIC SENSOR TAP

Technical Information

- **Material :**
 - GPG1000 & GPG2500:
 - Main Body: Zero Lead Stainless Steel 304
 - Internal System and Solenoid: Zero Lead Stainless Steel 316
 - GPG3000:
 - Main Body, Internal System and Solenoid: Zero Lead Stainless Steel 316
- **Cartridge :** Stainless Steel Solenoid Valve
- **Cartridge Size :** M10
- **Inlet :**
 - 15mm Female Flexible Connection: GPG1000
 - 15mm Female Conne Connections: GPG2500 & GPG3000
- **Flow Style :** Laminar Flow
- **Working Pressures :** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 5°C - 60°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- Low voltage solenoid valve
- Laser sensor technology: GPG1000 & GPG2500
- Digital sensor technology: GPG3000
- For Laser Sensor Tap (GPG1000 & GPG2500):
 - Expected time between recharges = 2.5 years
 - Expected battery replacement = 8 years
 - Solenoid is tested to 560,000 operations
- Internal Integrated sensor, solenoid valve and battery for easy installation without the need for any inwall / ceiling access
- Swivel aerator to allow adjustments
- Hygiene flush programming option to minimise the risk of Legionella and Biofilm Growth in infrequently used fixtures
- Unique "Push Fit" locking technology – allows installation / removal in less than a minute
- Environmentally sustainable design for rejuvenation and minimising maintenance
- Compatible with GENTEC STERISAN® Wash Basins and can be installed on other existing installations
- Wave on / Wave off and other run time options available on request, alternatively they can be adjusted on site utilising a remote control

GPURE® DURALAB — LABORATORY WATER TAPS

Engineered for Reliable Laboratory Performance

Designed for science laboratories, educational facilities and research environments, the GPURE® DURALAB range combines premium 316 stainless steel construction with exceptional durability and chemical resistance. Featuring a stainless steel cartridge and interchangeable outlet options, it delivers dependable performance where reliability and longevity matter most.

LABORATORY WATER TAP

Technical Information

- **Material :**
 - Main Body: Zero Lead Stainless Steel 316
 - Cartridge: Zero Lead Stainless Steel 304
- **Cartridge :** Ceramic Disc (Quarter Turn)
- **Cartridge Size :** 5/8"
- **Inlet :**
 - 15mm Male Connection: GPD103, GPD106, GPD710
 - 15mm Hot & Cold Male Connections: GPD140
- **Outlet :**
 - Curved Swivel Spout: GPD106, GPD140, GPD710
 - Curved Fixed Spout: GPD103
- **Flow Style :** Laminar Flow
- **Working Pressures :** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 5°C - 60°C
- **Finish:** Polished

Product Features

- Stainless Steel Zero Lead
- No crevices to eliminate bacterial build-up
- Soft seal, easy action stainless steel ceramic disc cartridge
- Stainless Steel 316 body and spout for chemical resistance
- Interchangeable handles (100mm lever, 150mm lever and capstan)
- Interchangeable nozzle & aerator
- Recommended for science and education projects

Cyclonic shower with
self-cleaning head

ECOSAFE - YOUR FIT-FOR-PURPOSE COMPLIANT SOLUTION

ECOSAFE offers a range of Emergency Showers and Eyewash equipment that are essential for a safe work environment. These products comply with statutory WHS requirements and set high standards in technology to ensure workplace safety.

ECOSAFE

COMBINATION SAFETY SHOWER WITH CYCLONIC SHOWERHEAD AND EYEWASH

Technical Information

- **Material :**
 - Zero Lead Stainless Steel 304
 - Sign : Plastic
- **Cartridge :** Ball Valve
- **Cartridge Size :** 15mm / 25mm
- **Inlet :** 32mm Female
- **Flow Style :** Cyclonic & Aerated Eyewash Flow
- **Working Pressures :** 210kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 16°C - 38°C
- **Finish / Colour :** Polished
- **Eyewash Flow Rate :** ≥11.4 lpm

Product Features

- Signs & Test Tags included with product
- Temperature relief valves available for temperatures outside of 16°C - 38°C
- Cyclonic shower head design has a spray pattern with a minimum diameter of 50.8cm for complete coverage
- Water distribution pattern in shower head and the flow holes are designed to prevent any lime build up or restrictions
- Audio & Visual Alarms Available with Connection to BMS Systems
- Recommended for Science, Education and Industrial projects

SAFETY SHOWER WITH CYCLONIC SHOWERHEAD

Technical Information

- **Material :**
 - Zero Lead Stainless Steel 304
 - Sign : Plastic
- **Cartridge :** Ball Valve
- **Cartridge Size :** 25mm
- **Inlet :**
 - 25mm Male: ECO2000EXP & ECO2010EXP
 - 32mm Female: ECO2020EXP
- **Outlet :**
 - Showerhead: ECO2020EXP
- **Flow Style :** Cyclonic
- **Working Pressures :** 210kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 16°C - 38°C
- **Finish / Colour :** Polished

Product Features

- Signs & Test Tags included with product
- Cyclonic shower head design has a spray pattern with a minimum diameter of 50.8cm for complete coverage
- Temperature relief valves available for temperatures outside of 16°C - 38°C
- Water distribution pattern in shower head and the flow holes are designed to prevent any lime build up or restrictions

EYEWASH

Technical Information

- **Material :**
 - Zero Lead Stainless Steel 304
 - Sign: Plastic
- **Cartridge :** Ball Valve
- **Cartridge Size :** 15mm
- **Inlet :** 15mm Female
- **Flow Style :** Aerated Flow
- **Working Pressures :** 210kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 16°C - 38°C
- **Finish / Colour :** Polished
- **Eyewash Flow Rate:** ≥11.4 lpm

Product Features

- Signs & Test Tags included with product
- Temperature relief valves available for temperatures outside of 16°C - 38°C
- Audio & Visual Alarms Available with Connection to BMS Systems
- Recommended for Science, Education and Industrial projects

SCALD PROTECTION VALVE WITH THERMAL ACTUATION

Technical Information

- **Material :** Zero Lead Stainless Steel 304
- **Inlet :** 15mm Male
- **Working Pressures :** 210kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 37°C-80°C
- **Finish / Colour :** Polished

Product Features

- Thermal actuated valve continuously senses the water temperature and automatically bleeds the shower and/or eyewash systems until the extreme temperature is eliminated and back to the full close temperature
- Operation without external power supply

AUDIOVISUAL ALARM TO SUIT EMERGENCY EYEWASH / SHOWER WITH FLASHING BEACON AND FLOW SWITCH

Technical Information

- **Material :** Plastic/ Stainless Steel
- **Inlet :** 25mm Male
- **Working Pressures :** 210kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures :** 5°C - 50°C

Product Features

- Orange flashing light, 110 flash/min
- Sound alert 92db
- BMS Connectivity
- IP43 Protection (220-240 VAC/ Shuko Connection)
- Recommended for Defence, Mining and remote locations

LEAD FREE BRASS

- This Brass products category is compliant with ABCB's requirements for lead-free of less than a weighted average lead content of 0.25%, allowable by ABCB's requirements
- Watermark Certification (when applicable)
- WELS rated
- DZR Brass
- Chrome plated / other finishes available on request
- Comprehensive range available

CLEANLINE LEAD FREE BRASS

CLEANLINE Lead Free Brass Lever Tapware features a ceramic disc cartridge for precise water flow control and no crevices to eliminate bacterial build-up. The range is customisable with interchangeable handles and comes with button indicators. Recommended for health and aged care projects.

CLEANLINE LEAD FREE BRASS

BASIN & SINK SETS

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
 - Handle: Brass
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet:**
 - Curved Fixed Spout: CAPLF0001 & CLLF15001
 - Gooseneck Swivel Spout: CAPLF0005, CLLF10005 & CLLF15005
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue button indicators supplied
- Soft seal, easy action ceramic disc cartridge
- Allen key fixings for secure handles and outlets
- Interchangeable Handles (100mm Lever, 150mm Lever and Capstan)
- Three cartridges used in all Cleanline products for easier maintenance
- Flow variants available
- Product customisation available
- Recommended for use in health and aged care projects

EXPOSED MIXING SETS

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
 - Handle: Brass
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:**
 - 15mm: CAPLF0010, CAPLF0012, CLLF10010, CLLF10012, CLLF15010 & CLLF15012
 - 15mm Male: CAPLF0015, CLLF10015 & CLLF15015
- **Outlet:**
 - Gooseneck Swivel Spout: CAPLF0010, CAPLF0015, CLLF10010, CLLF15010 & CLLF15015
 - Fixed Parallel Spout: CAPLF0012, CLLF10012 & CLLF15012
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue button indicators supplied: CAPLF0010, CAPLF0012, CAPLF0015, CLLF15010, CLLF15012 & CLLF15015
- Red, Yellow & Blue button indicators supplied: CLLF10010, CLLF10012 & CLLF10015
- Soft seal, easy action ceramic disc cartridge
- Allen key fixings for secure handles and outlets
- Interchangeable Handles (100mm Lever, 150mm Lever and Capstan)
- Three cartridges used in all Cleanline products for easier maintenance
- Eccentric bases for easier installation: CAPLF0010, CAPLF0012, CLLF15010 & CLLF15012
- Flow variants available
- Product customisation available
- Recommended for use in health and aged care projects

*Product information is subject to disclaimer within this catalogue.

CLEANLINE LEAD FREE BRASS

RECESS MIXING SETS

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
 - Handle: Brass
- **Cartridge:**
 - Ceramic Disk (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet:**
 - Gooseneck Swivel Spout: CAPLF0035, CLLF10035 & CLLF15035
 - Fixed Parallel Spout: CAPLF0040, CLLF10040 & CLLF15040
- **Flow Style:** Laminar Flow
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue button indicators supplied
- Soft seal, easy action ceramic disc cartridge
- Allen key fixings for secure handles and outlets
- Interchangeable Handles (100mm Lever, 150mm Lever and Capstan)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

CONTROL VALVES

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
 - Handle: Brass
- **Cartridge:** Ceramic Disc (Quarter Turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue button indicators supplied
- Soft seal, easy action ceramic disc cartridge
- Allen key fixings for secure handles and outlets
- Interchangeable Handles (100mm Lever, 150mm Lever and Capstan)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

WASHING MACHINE & CISTERN TAPS

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
 - Handle: Brass
- **Cartridge:**
 - Washing Machine Tap: Jumper Valve
 - Cistern Tap: Ceramic Disc (Quarter turn)
- **Cartridge Size:** 5/8"
- **Inlet:** 15mm
- **Outlet:**
 - 20mm Male Outlet: CAPLF0045(H,C), CLLF10045(H,C) & CLLF15045(H,C)
 - 15mm Male Outlet: CAPLF0050(H,C), CLLF10050(H,C) & CLLF15050(H,C)
- **Flow Style:** Free Flow
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- No crevices to eliminate bacterial build-up
- Handles with Red, Yellow & Blue button indicators supplied
- Soft seal, easy action ceramic disc cartridge
- Allen key fixings for secure handles and outlets
- Interchangeable Handles (100mm Lever, 150mm Lever and Capstan)
- Three cartridges used in all Cleanline products for easier maintenance
- Recommended for use in health and aged care projects

NUGEN LEAD FREE BRASS

BASIN & SINK MIXERS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:**
 - Ceramic Disc (Kerox) - Cold Start: NGMLF1000 & NGMLF2000D
 - Ceramic Disc (Kerox) - Normal Operation: NGMLF3500 & NGMLF3500D
- **Cartridge Size:** 35 mm
- **Inlet:** 15 mm Female Flexible Connections
- **Outlet:**
 - Low Line Swivel Spout: NGMLF3500 & NGMLF3500D
- **Flow Style:** Laminar Flow
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Smooth close operation
- More hygienic
- The basin tap is designed to eliminate stagnant water
- Additional Legionella prevention
- Supplied with a cold start cartridge which saves energy by preventing warm water being drawn while the handle is in the neutral position: NGMLF1000 & NGMLF2000D
- Supplied with PEX inlet hoses
- Handles with Red & blue colour indicators available on request
- Flow Variants Available

SHOWER MIXERS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Ceramic Disc (Kerox) - Normal Operation
- **Cartridge Size:** 35 mm
- **Inlet:** 15mm Female Connections
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Smooth close operation
- More hygienic
- The basin tap is designed to eliminate stagnant water
- Additional Legionella prevention
- With cold start cartridge: saves energy by preventing warm water being drawn while the handle is in the neutral position
- Handles with Red, yellow & blue colour indicators available on request
- Flow Variants Available

FLOSTOP LEAD FREE BRASS

TIMED FLOW BIB TAPS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm Male/ Extension provided: 15mm Female
- **Outlet:** Single Temperature Timed Flow
- **Flow Style:** Free Flow
- **Run Time:** 5 (+/- 1) seconds (Fixed)
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Soft-close, hydraulically operated time flow means that it's suitable for all markets
- Designed to be durable and anti-vandal. Suitable for use in public areas
- One service kit used across the Flostop range for easy maintenance
- Supplied with inlet strainer and flow controller
- Yellow & Blue button indicators supplied
- Various Flow Cups available for longer/ shorter run times
- Product customisation available
- Recommended for commercial and public projects

TIMED FLOW PILLAR TAPS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:**
 - 15mm Male: TFTLF1500, TFTLF1500AC & TFTLF4500
 - 15mm Female Flexible Connections: TFTLF2000 & TFTLF2500
- **Outlet:**
 - Single Temperature Timed Flow: TFTLF1500, TFTLF1500AC & TFTLF4500
 - Right Angled Single Temperature Timed Flow: TFTLF2000
 - Right Angled Hot and Cold Temperature Timed Flow: TFTLF2500
- **Flow Style:**
 - Aerated Flow: TFTLF1500
 - Free Flow: TFTLF1500AC & TFTLF4500
 - Laminar Flow: TFTLF2000 & TFTLF2500
- **Run Time:** 5 (+/- 1) seconds (Fixed)
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Soft-close, hydraulically operated time flow means that it's suitable for all markets
- Designed to be durable and anti-vandal. Suitable for use in public areas
- Concealed Flow Straightener: TFTLF1500AC
- Adjustable Up to 0-40 (+/-10) seconds run time cartridge: TFTLF1500
- Up to 0-40 (+/-10) seconds run time available: TFTLF1500AC
- Blue and Yellow button indicators supplied: TFTLF1500 & TFTLF2000
- Blue, Red and Yellow button indicators supplied: TFTLF2500
- Various Flow Cups available for longer/ shorter run times: TFTLF2000, TFTLF2500 & TFTLF4500
- One service kit used across the Flostop range for easy maintenance
- Supplied with inlet strainer and flow controller
- Product customisation available
- Recommended for commercial and public projects

TIMED FLOW BUBBLERS

Technical Information

- **Material:** Lead Free DZR Brass
- **Bubbler Guard Material:** UV Stabilised Food Grade Rubber
- **Cartridge:** Timed Flow (Hydraulic)
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm
- **Outlet:**
 - Right Angled Single Temperature Timed Flow : TFTLF8000
 - 122° Angled Single Temperature Timed Flow : TFTLF8000
 - Upright Single Temperature Timed Flow: TFTLF8050UR & TFTLF8050URL
- **Flow Style:** Free Flow
- **Run Time:** 0-40 (+/-10) seconds (Adjustable)
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 50°C

SMARTEC LEAD FREE BRASS

ELECTRONIC SENSOR TAPS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Solenoid Valve
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm Female Flexible Connections
- **Flow Style:** Laminar Flow
- **Run Time:** 2 seconds (auto on / off)
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Digital sensor technology; Sensor range, run timing and hygiene flush programming are adjustable post installation with the use of remote controls (sold separately)
- Extension leads available for both power and sensor
- IP67 for the sensor and sensor tap, IPX4 solenoid control box behind the wall
- Integral strainer minimises fouling by debris in Solenoid
- Both battery and mains power options available (Configuration can be changed following installation)
- Hygiene flush programming minimises the risk of Legionella from infrequently used fixtures
- Recommended for all types projects
- Product customisation available

ELECTRONIC SENSOR PLATE

Technical Information

- **Material:** Zero Lead Stainless Steel 304
- **Cartridge:** Solenoid Valve
- **Cartridge Size:** 15 mm
- **Inlet:** 15mm Male
- **Run Time:** 15 seconds Wave on / Wave off
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 50°C
- **Finish:** Brushed

Product Feature

- Lead Free
- Digital sensor technology; Sensor range, run timing and hygiene flush programming are adjustable post installation with the use of remote controls (sold separately)
- Extension leads available for both power and sensor
- IP67 rated control box houses the solenoid valve and waterproof connections
- Integral strainer minimises fouling by debris
- Both battery and mains power options available (Configuration can be changed following installation)
- Hygiene flush programming minimises the risk of Legionella from infrequently used fixtures
- Can be used with any spout or outlet
- Recommended for all types projects
- Product customisation available

ELECTRONIC SOAP DISPENSERS

Technical Information

- **Material:** Brass, Pump mechanism: Plastic
- **Run Time:** 1.5 seconds (auto on / off)
- **Soap Viscosity:**
 - Between 1-3500m Pa.s (cP)
 - Suggested viscosity is 1800Pa.s (cP)
- **Soap Bottle capacity:**
 - 1L
 - 12 Volt Soap Pump
- **Finish:** Chrome Plated

Product Features

- Digital sensor technology; Sensor range and run timing are adjustable post installation with the use of remote controls (sold separately)
- Mains Powered option only
- Individual soap bottle is easily removable for refilling and servicing
- Recommended for all projects
- Product customisation available

*Product information is subject to disclaimer within this catalogue.

JETFLO LEAD FREE BRASS

The JETFLO LEAD FREE BRASS food service range is built to meet the demands of commercial food preparation. It offers a versatile range of pre-rinse units that use less water and energy than conventional units. The design ensures efficient cleaning, and the range is suitable for commercial kitchen applications.

JETFLO LEAD FREE BRASS

PRE-RINSE UNITS

Technical Information

- **Material:**
 - Body: Lead Free DZR Brass
- **Cartridge:** Ceramic Disc / Self Closing
- **Cartridge Size:**
 - 35mm: JETFLF1200 & JETFLF1200C
 - 15mm: JETFLF3000, JETFLF3000W, JETFLF4000, JETFLF5000, JETFLF5600, JETFLF6000 & JETFLF9900
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:**
 - Body: Chrome Plated
- **Inlet:**
 - 15 mm Female: JETFLF1200, JETFLF1200C, JETFLF5000, JETFLF5600 & JETFLF6000
 - 15mm: JETFLF3000, JETFLF3000W & JETFLF4000
 - 15mm Male: JETFLF9900
- **Flow Style:** Blade Spray / Laminar Flow

Product Features

- Lead Free Brass
- Jet spray in the trigger spray is created with a stainless steel blade that retains its shape for longer and provides an easier clean with less water use
- The soft, easy-clean hose provides flexibility and makes using the trigger spray easier
- Soft spring for easy operation
- The cold start cartridge prevents hot water from being drawn while the tap is still in the neutral position. No hot water or energy is used until the handle is turned towards the left
- Adjustable wall bracket (up to 250mm)
- Double-check valve
- Aerator nozzle outlet available for trigger spray
- Recommended for Commercial Kitchens: JETFLF1200, JETFLF1200C, JETFLF3000W, JETFLF5000, JETFLF6000 & JETFLF9900
- Recommended for Commercial Kitchens & Healthcare CSSD Areas: JETFLF3000, JETFLF4000 & JETFLF5600

 - Self Closing: JETFLF7000
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:**
 - Body: Chrome Plated
- **Inlet:**
 - 15mm Male: JETFLF7000
 - 15mm Female: JETFLF7500
- **Flow Style:** Blade Spray/ Laminar Flow

Product Features

- Lead Free Brass
- The soft, easy-clean hose provides flexibility and makes using the trigger spray easier
- Soft spring for easy operation
- Double-check valve
- Aerator nozzle outlet available for trigger spray
- Recommended for Commercial Kitchens & Healthcare CSSD Areas

TRIGGER SPRAYS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Self Closing
- **Working Pressures:** 150kPa-500kPa (Recommended : 350kPa)
- **Working Temperatures:** 5°C - 80°C
- **Finish:** Chrome Plated
- **Inlet:** 15mm Male
- **Flow Style:** Blade Spray

Product Features

- Lead Free Brass
- Trigger spray with blade spray provides an easier clean with less water use
- Recommended for commercial kitchens

JETFLF1200

Hob Mounted Pre-Rinse Unit

Lead Free DZR Brass Hob Mounted Pre-Rinse Unit w/ Pot Filler, Mixer

JETFLF1200C

Hob Mounted Pre-Rinse Unit

Lead Free DZR Brass Hob Mounted Pre-Rinse Unit w/ Pot Filler - Compact

FLOMIX LEAD FREE BRASS

THERMOSTATIC MIXING VALVES

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Mechanical / Wax Element
- **Inlet:**
 - 15mm Male : MVLF5015 & MVLF6015
 - 20mm Copper Pipe : MVLF60153, MVLF60153BAC, MVLF60153H, MVLF60154, MVLF60154BAC & MVLF60154H
- **Outlet:**
 - 20mm Male : MVLF6015
 - 20mm Copper Pipe : MVLF5015, MVLF60153, MVLF60153BAC, MVLF60153H, MVLF60154, MVLF60154BAC & MVLF60154H
- **Working Temperatures:** 5°C - 80°C
- **Inlet temperature cold (°C):** Min 5°C - Max 30°C
- **Inlet temperature hot (°C):** Min 55°C - Max 80°C
- **Mixed outlet temperature (°C):** 35°C - 50°C
- **Max differential inlet pressure (kPa):** 6:1 Ratio
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- NSW Health approved
- Chrome plated valve
- Easy-to-use Hygiene Flush capability
- Can support up to 6 connections (depending on flow rate)
- MVLF6015 is designed for high flow applications
- Low cost maintenance
- Removable strainers and isolation points on both hot and cold sections allow for easy maintenance
- For NABERS rated projects: MVLF5015-Low Flow TMV to suit 2 LPM applications
- Recommended for any project

MVLF5015

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Strainers and Non Return Valves

(Must be installed with isolation valves- not supplied by GENTEC)

MVLF6015

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Strainers, Isolation and Non Return Valves

*Product information is subject to disclaimer within this catalogue.

FLOMIX LEAD FREE BRASS

MVLF60153

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Stainless Steel Recessed Enclosure with Lockable Lid and Copper Tails

MVLF60153H

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Stainless Steel Recessed Enclosure with Hinged Lockable Lid and Copper Tails

MVLF60154

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Cold Water Bypass, Stainless Steel Recessed Enclosure with Recessed Lockable Lid and Copper Tails

MVLF60154H

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Cold Water Bypass, Stainless Steel Recessed Enclosure with Hinged Lockable Lid and Copper Tails

*Product information is subject to disclaimer within this catalogue.

FLOMIX LEAD FREE BRASS

MVLF60153BAC

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Copper Tails, Stainless Steel Enclosure and Temperature Probe Adapter

MVLF60154BAC

Thermostatic Mixing Valve

NSW Health Approved Thermostatic Mixing Valve Lead Free DZR Brass Chrome Plated w/ Cold Water Bypass, Copper Tails, Stainless Steel Enclosure and Temperature Probe Adapter

TEMPSET LEAD FREE BRASS

THERMOSTATIC MIXING TAPS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Thermostatic
- **Inlet:**
 - 15 mm Female Flexible Connections: MVPMLF10100 & MVPMLF10150
 - 15mm Female : MVPMLF30100 & MVPMLF30150
- **Flow Style:** Laminar Flow
- **Working Temperatures:** 10°C - 50°C
- **Inlet temperature cold (°C):** Min 5°C - Max 30°C
- **Inlet temperature hot (°C):** Min 55°C - Max 80°C
- **Mixed outlet temperature (°C):** 35°C - 50°C
- **Max differential inlet pressure (kPa):** 6:1 Ratio
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Point-of-use to reduce Legionella risk
- Removable spout for hygienic cleaning
- Supplied with strainers and non-return / isolation valves
- Thermostatic valve is located under the handle for easy maintenance
- Simple and easy-to-use Hygiene flush
- Recommended for health projects

THERMOSTATIC MIXING SHOWERS

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Thermostatic
- **Inlet:** 15mm Male
- **Working Temperatures:** 10°C - 50°C
- **Inlet temperature cold (°C):** Min 5°C - Max 30°C
- **Inlet temperature hot (°C):** Min 55°C - Max 80°C
- **Mixed outlet temperature (°C):** 35°C - 50°C
- **Max differential inlet pressure (kPa):** 6:1 Ratio
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Finish:** Chrome Plated

Product Features

- Lead Free Brass
- Point-of-use to reduce Legionella risk
- Removable spout for hygienic cleaning
- Supplied with strainers and non-return / isolation valves
- Thermostatic valve is located under the handle for easy maintenance
- Simple and easy-to-use Hygiene flush
- Laminar flow outlet
- Recommended for health projects

THERMOSTATIC MIXER

Technical Information

- **Material:** Lead Free DZR Brass
- **Cartridge:** Thermostatic
- **Inlet:** 15mm Male
- **Flow Style:** Laminar Flow
- **Working Temperatures:** 10°C - 50°C
- **Inlet temperature cold (°C):** Min 5°C - Max 30°C
- **Inlet temperature hot (°C):** Min 55°C - Max 80°C
- **Mixed outlet temperature (°C):** 35°C - 50°C
- **Max differential inlet pressure (kPa):** 10:1 Ratio
- **Working Pressures:** 50kPa-500kPa (Recommended : 350kPa)
- **Finish:**
 - Lid: Polished Stainless Steel
 - Spout: Chrome Plated

Product Features

- Lead Free Brass
- Point-of-use to reduce Legionella risk
- Domed handle available for temperature control setting
- Removable spout for hygienic cleaning
- Supplied with strainers and non-return / isolation valves
- Thermostatic valve is located under the handle for easy maintenance
- External temperature control
- Simple and easy-to-use Hygiene flush
- Recommended for health projects

ANTI-LIGATURE LEAD FREE BRASS

GENTEC offers a range of ANTI-LIGATURE LEAD FREE BRASS Tapware that is designed to prevent self-harm and meet the specific needs of healthcare and mental health facilities. These products feature a unique design that eliminates ligature points, reducing the risk of self-harm. The range is recommended for any facility that requires anti-ligature fixtures, including hospitals, mental health facilities, and correctional facilities.

ANTI-LIGATURE LEAD FREE BRASS

ANTI-LIGATURE TAPWARE

Technical Information

- **Material:**
 - Body:
 - Zero Lead Stainless Steel 304: AVSS1000
 - Lead Free DZR Brass: AVLF0001, AVLF0025, AVLF0075 & TFTLF6000
 - Handle:
 - Brass: AVLF0001, AVLF0025 & AVLF0075
- **Cartridge:**
 - Ceramic Disc (Quarter Turn): AVLF0001, AVLF0025 & AVLF0075
 - Timed Flow (Hydraulic): TFTLF6000
- **Cartridge Size:**
 - 5/8": AVLF0001, AVLF0025 & AVLF0075
 - 15mm: TFTLF6000
- **Inlet:**
 - 15mm: AVLF0001, AVLF0025, AVLF0075 & TFTLF6000
 - 15mm Male: AVSS1000
- **Flow Style:**
 - Free Flow: AVLF0001, AVLF0025, AVSS1000
 - Fixed Shower Spray: AVLF0075
 - Spray Flow: TFTLF6000
- **Working Pressures:**
 - 50kPa-500kPa: AVLF0001, AVLF0025, AVLF0075 & AVSS1000
 - 150kPa-500kPa: TFTLF6000
- **Recommended Working Pressures:** 350kPa
- **Working Temperatures:**
 - 5°C - 60°C: AVLF0001, AVLF0025, AVLF0075 & AVSS1000
 - 5°C - 50°C: TFTLF6000
- **Finish:**
 - Chrome Plated: AVLF0001, AVLF0025, AVLF0075
 - Polished: AVSS1000

Product Features

- **AVLF0001, AVLF0025, AVLF0075:**
 - Lead Free Brass
 - Anti-ligature and anti-vandal
 - Anti-rotation pin: AVLF0025
 - Anti-rotation pins on adaptors and outlet: AVLF0001 & AVLF0075
 - Up to 10mm depth adjustment on control valves: AVLF0001, AVLF0025 & AVLF0075
 - All water contacting components comply with less than 0.25% lead: AVLF0025
 - Supplied with cold, warm, hot indicators for each control valve
 - Recommended for projects in Public areas, Detention Centres and Mental Health facilities
 - Gentec can customise products to suit customer requirements
- **TFTLF6000:**
 - Lead Free Brass
 - Soft-close, hydraulically operated time flow means that it's suitable for all markets
 - Designed to be durable and anti-vandal. Suitable for use in public areas
 - One service kit used across the Flostop range for easy maintenance
 - Supplied with inlet strainer and flow controller
 - Recommended for commercial and public projects
- **AVSS1000:**
 - Stainless Steel Zero Lead
 - Anti-rotation pin
 - Anti-ligature and anti-vandal
 - Adjustable to suit stainless basins and can be used with benchtops up to 18mm thick
 - Gentec can customise products to suit customer requirements
 - Recommended for projects in Public areas, Detention Centres and Mental Health facilities

DURALAB

The DURALAB range offers a comprehensive selection of laboratory tapware, designed to meet the water and gas application needs of even the most demanding laboratories. The tapware is ergonomically designed for ease of use, and the range is ideal for science and education projects.

SPECIAL GAS

Technical Information

- **Material:** Brass
- **Cartridge:**
 - Ceramic Disc: DURA301, DURA302, DURA303, DURA1713 & DURA1714
 - Needle Valve: DURA1715 & DURA1716
- **Inlet:**
 - 15mm Male: DURA301, DURA302 & DURA303
 - 8mm Female: DURA1713, DURA1714, DURA1715 & DURA1716
- **Working Pressures:**
 - ≤20kPa: DURA301, DURA302, DURA303, DURA1713 & DURA1714
 - 50kPa - 500kPa: DURA1715 & DURA1716
- **Recommended Working Pressures:**
 - 7kPa: DURA301, DURA302, DURA303, DURA1713 & DURA1714
- **Finish:** Polyamide 11 white (Alternate colours on request)

Product Features

- Anti-corrosive coating is 300microns thick to protect the product from chemical damage
- Resistant to base chemicals
- Nozzles or aerator option: DURA1713, DURA1714, DURA1715 & DURA1716
- Recommended for science and education projects

SPECIAL WATER

Technical Information

- **Material:** Polypropylene
- **Cartridge:** Plastic, 1/4 turn ceramic disc
- **Inlet:**
 - 20mm Female: DURA295
 - 8mm Male: DURA298, DURA299
 - 8mm Male: DURA1719
- **Working Pressures:** 50kPa - 400kPa
- **Recommended Working Pressures:** 350kPa
- **Working Temperatures:** 10°C - 48°C
- **Finish:** Polyamide 11 white (Alternate colours on request)

Product Features

- Anti-corrosive coating is 300microns thick to protect the product from chemical damage
- Resistant to base chemicals
- Nozzles or aerator option
- Recommended for science and education projects

SANITARYWARE

GENTEC's Sanitaryware range offers a variety of high-quality bathroom fixtures and fittings suitable for commercial, industrial, and healthcare applications.

This range is designed for efficient and easy maintenance. These products are customisable to fit the specific needs of any project and are built to withstand high usage and heavy traffic areas.

Sterisan®

BASINS

STERISAN® Basins are a range of high-quality, hygienic basins designed for use in health and aged care applications. The basins are available in a range of sizes and configurations to suit different applications, and are easy to clean and maintain.

- Specifically designed with a rear offset waste to prevent aerosols created from water being directed into the waste fitting, thus reducing airborne bacteria
- Sloped surfaces in the bowl area to drain water effectively to rear offset waste
- NANO glazing
- Soap overflow will drop straight into the drain
- Hygienic hand wash method

STERISAN® BASINS

BASINS

Technical Information

- **Material:** Ceramic
- **Outlet:** 40mm Male
- **Waste Location:** Offset Waste
- **Finish:** White Glaze
- **Overflow:** No Overflow

Product Features

- Hygienic concealed fixings
- Unique, rear offset drain to eliminate outlets reaching over waste
- Sloped surfaces to reduce bacteria growth
- SANV560B, SANV560B-1TH :Designed to meet Type B medium clinical hospital basin requirements specified in Australasian Health Facility Guidelines 2016
- SANC610B, SANC610BT: Designed to meet Type A large "scrub" clinical hospital basin requirements specified in Australasian Health Facility Guidelines 2016
- SANC610B, SANC610BT: Deep bowl with anti-splash technology for clinical use
- SANF715BL, SANF715BLT, SANF715BR, SANF715BRT: Can be installed to comply with AS1428.1-2021
- SANF715BL, SANF715BLT, SANF715BR, SANF715BRT: Design for Access and Mobility requirements
- Weight Bearing Up to 150kg (dependant on correct installation)
- Underside of bowl is glazed for easy cleaning
- Nanotechnology Coating
- Basin Shroud to suit available
- Recommended for use in health and aged care projects

BASIN SHROUDS

Technical Information

- **Material :** Stainless Steel (SS304)
- **Finish :** Pearl White (Stainless-coating Paint)

Product Features

- Fixed with bracket and wall screws (included)
- Lightweight construction
- Fixed with security hex screws (included)
- Recommended for use in health and aged care projects

*Product information is subject to disclaimer within this catalogue.

STERISAN® BASINS

SANV560B

Clinical Basin

Wall Mounted Type B Clinical Basin w/ No Tap Hole Offset Waste No Overflow

SANV560B-1TH

Clinical Basin

Wall Mounted Type B Clinical Basin w/ One Tap Hole Offset Waste No Overflow

SANC610B

Clinical Basin

Wall Mounted Type A Clinical Basin w/ Nano Glazing, No Tap Hole Offset Waste No Overflow

Stop odours

Stop virus spread

Stop insects

One-Way Valve provides a seal between the basin waste and the basin bowl to seal off any possible aerosol of bacteria and biofilm into the hand wash area

ONE-WAY VALVE

GENTEC's One-Way Valve offers a unique drainage solution that stands out from other products on the market. Its flexible, single-piece units are easy to install and require minimal maintenance, making it a convenient option for customers.

Additionally, this range can be coupled and retrofitted with any of our existing 316 Stainless Steel 32mm/40mm basin waste without any disruption to the surrounding waste area.

One-Way Valve features a one-way valve that allows water to flow freely, while preventing the escape of pathogens, odours, and vermin from the sewage and waste system into habitable zones.

ONE-WAY VALVE

STAINLESS STEEL BASIN WASTE WITH ONE-WAY VALVES

Technical Information

- Material: Zero Lead Stainless Steel 316
- Finish: Body- Polished Stainless Steel

Product Features

- Removable one way valve to seal biofilm bacteria from basin waste
- Provides easy access to allow cleaning of biofilm without causing aerosoling
- No ridges or braces to obstruct or catch waste
- Air tight seal to prevent any odour from escaping
- Recommended for use in all public use, health and aged care projects
