Eyewash Head

Durable &
Corrosion
Resistance

The first in Australia to Achieve WaterMark Certification to AS 4775:2026

AS 4775:2026 is here. Is your emergency safety equipment compliant to the new WaterMark? AS 4775:2026, published on 5 June 2026, replaces AS 4775-2007 and introduces updated requirements for emergency washing equipment.

The Australian Building Codes Board (ABCB) has adopted AS 4775:2026 into the WaterMark Certification Scheme, with the Standard now listed under Emergency Washing Equipment.

For hospitals, laboratories, pharmaceutical facilities, industrial environments and other critical workplaces, emergency safety equipment certified to AS 4775:2026 matter.

MEET GENTEC ECOSAFE

Built for demanding environments, ECOSAFE combines robust Stainless Steel construction with purpose-designed features for reliable emergency response.

304 Stainless Steel Construction — Robust and corrosion resistant (316 Stainless Steel also available on request)

Cyclonic showerhead — Broad, consistent spray pattern with minimum 50.8 cm coverage (Safety Shower only)

Anti-lime build-up design — Helps maintain water distribution and flow (Safety Shower only)

Temperature relief valve — Available for temperatures outside 15°C – 37°C

Audio & visual alarms — Available with Connection to BMS Systems

Signs & test tags — Supplied with the product

Don't Compromise on Safety

When safety is critical, specify GENTEC ECOSAFE with confidence.
